

COLOR. ARTISTRY. EXCELLENCE.

DARK SELF-TANNING MIST

Norvell Dark Self-Tanning Mist is designed with warm brown undertones to give a natural-looking classic bronze tan. This light, fresh mist is easy to use anytime, anywhere to create a bronze glow or extend the life of a spray tan. Only the finest ingredients are purposefully selected and paired with our innovative technology to achieve excellence in both skincare and color. The most advanced bronzers are carefully blended with the highest quality of naturally derived DHA, potent antioxidants and rich moisturizers for a radiant complexion – because healthy skin tans best!

BOLD COLOR RESULTS

Cosmetic bronzers provide for immediate color, while DHA will deepen the tan over the next 24 hours. For a darker tan, gradually build up layers of color through multiple applications. Our products are expertly crafted to prevent any orange undertones for the most natural-looking tan.

NATURAL COLOR COMPLEX™

Our proprietary infusion of skin-loving ingredients.

- **ANTI-AGING** – Vitamin E and Tomato fruit extract help reduce wrinkles and prevent signs of aging.
- **TIGHTENS & FIRMS** – Vitamin C stimulates collagen to help improve skin elasticity and firmness.
- **SMOOTHS & HYDRATES** – Aloe Vera Barbadensis Leaf Juice is a moisturizing anti-oxidant that soothes and balances the skin to be more radiant.

SAY GOODBYE TO UNPLEASANT ODORS

Specially formulated with Ordenone®, a powerful odor-neutralizing ingredient, it effectively encapsulates and virtually eliminates odors commonly associated with self-tanning. It is infused with the delightful fragrance of Raspberry Almond (Nut-Allergy-Free).
