

COLOR. ARTISTRY. EXCELLENCE.

NEW & IMPROVED 2-STEP COMPETITION HANDHELD SPRAY TAN SOLUTION SYSTEM

Precision-formulated to deliver winning, stage-ready radiance that makes your clients stand out from the crowd. Featuring a Base Coat and DHA-Free, Bronzer-Only Top Coat created to seamlessly work together for maximum definition and show-stopping color. The highest quality ingredients and innovative technology combine to deliver excellence in both color and skincare—blending naturally-derived DHA, potent antioxidants, and rich moisturizers for a radiant complexion – because healthy skin tans best!

BOLD, WINNING COLOR RESULTS

As one of the largest users of DHA globally, Norvell rigorously tests every batch for peak quality and performance. Crafted to eliminate orange undertones, our products deliver deep, flawless color that holds under intense stage lighting. The Base Coat builds a rich violet-mahogany foundation, while the Top Coat enhances definition for a sculpted, stage-ready silhouette.

INFUSED WITH NATURAL COLOR COMPLEX™

a proprietary blend of skin-loving ingredients that promote a healthy, radiant complexion.

SAY GOODBYE TO ODORS

Scent-free and specially formulated with Ordenone™, a powerful odor-neutralizing ingredient that effectively encapsulates and virtually eliminates odors commonly associated with spray tanning.

AVAILABLE SIZES:

Base Coat 8 fl. oz | 404509, 34 fl. oz | 404510

Top Coat 8 fl. oz | 404511, 34 fl. oz | 404512

WHAT COMPETITIVE TANNERS ARE SAYING!*

100%

Loved the color and said it made them look their absolute best

Said their tan held strong against hot stage lights and sweat

Would use the New 2-Step Norvell Competition Spray Tan System again

*Windy City Natural Chicago, IL and PCA, Boston, MA contestant survey response result findings from August and September 2025.

HOW TO USE

1. Pre-Tan Prep: Approx. 12 – 24 hours before applying the Norvell 2-Step Competition Spray Tan Solution System the client tanner should exfoliate, shave, etc.
2. Day before Event: To balance skin pH levels, immediately prior to Base Coat (Step 1) application, spray client with XLATAN or have them use the Exmitt according to instructions. Next, apply the Base Coat approx. 24 hours before stage time.
3. To moisturize, seal-in color and mitigate transfer, immediately after the Base Coat application, spray Hydrofirm according to directions, then follow-up with a light coating of Tan-Lucent to help reduce tackiness without any harm to the tan.
4. After 24 hours, if necessary, the client tanner may rinse (warm water only, no soap or hot water; shaving, shampooing etc).
5. On Show Day: Apply Top Coat (Step 2) and use air-only from the spray gun to dry completely before adding more coats as needed or dressing. No additional pre- or post-tan care products needed - this Top Coat perfects and locks-in color for a flawless, stay-put finish.
