

WHERE BEAUTY MEETS SCIENCE & TECHNOLOGY

WORK INSTRUCTIONS

Date: 07/13/26

Model: VPRO

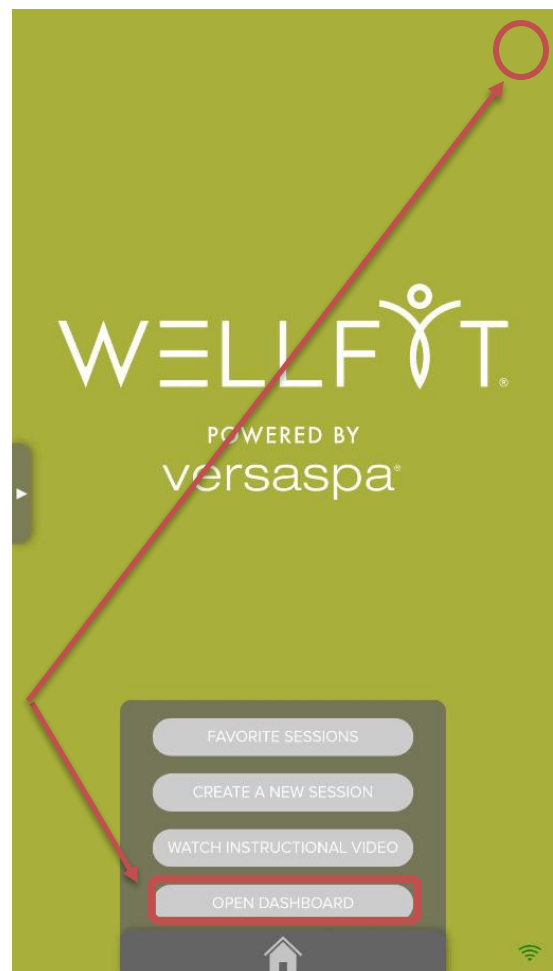

Subject: Connecting to Wireless network on V3 VersaPro controller

Summary: This document outlines how to connect to the internet on the V3 VersaPro controller.

Menu Navigation:

Home screen:

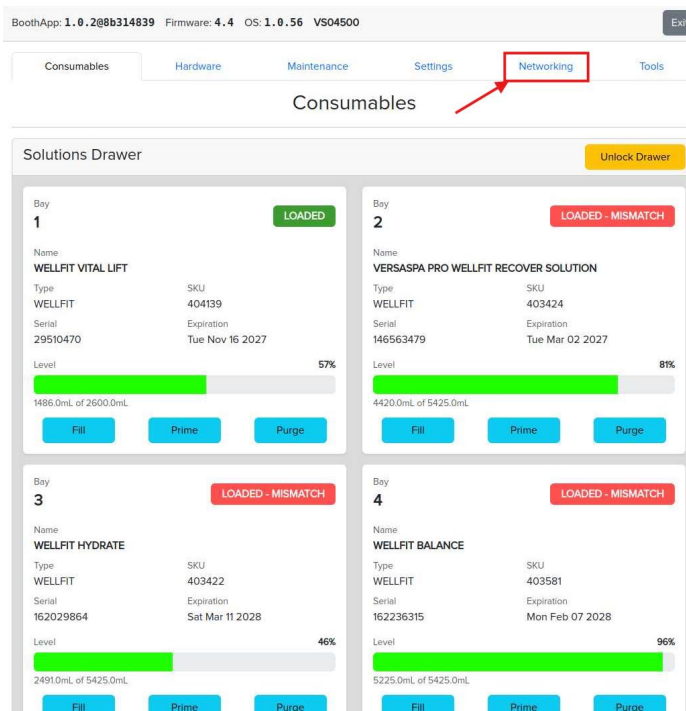

- From the home screen you will want to access the dashboard by selecting the home button and 'Open Dashboard' or by holding the upper right-hand corner of the screen for 5 seconds until the pin pad appears on screen
 - o Input your pin and proceed to the next step

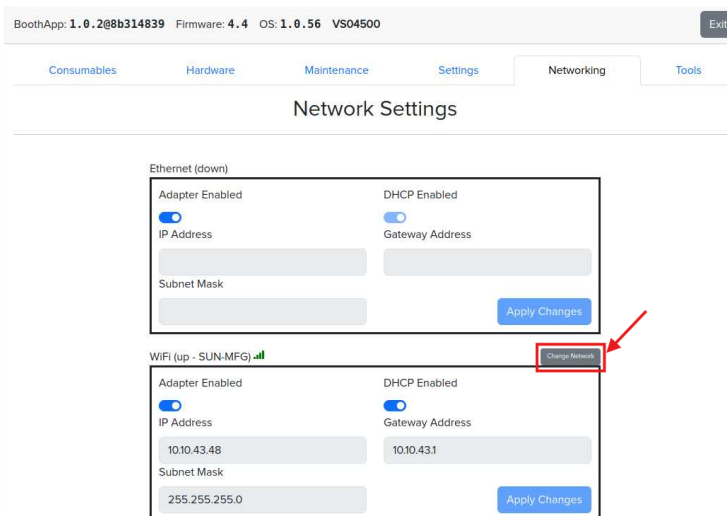

WHERE BEAUTY MEETS SCIENCE & TECHNOLOGY

Dashboard:

- Once in the dashboard, navigate to the networking tab at the top of the screen

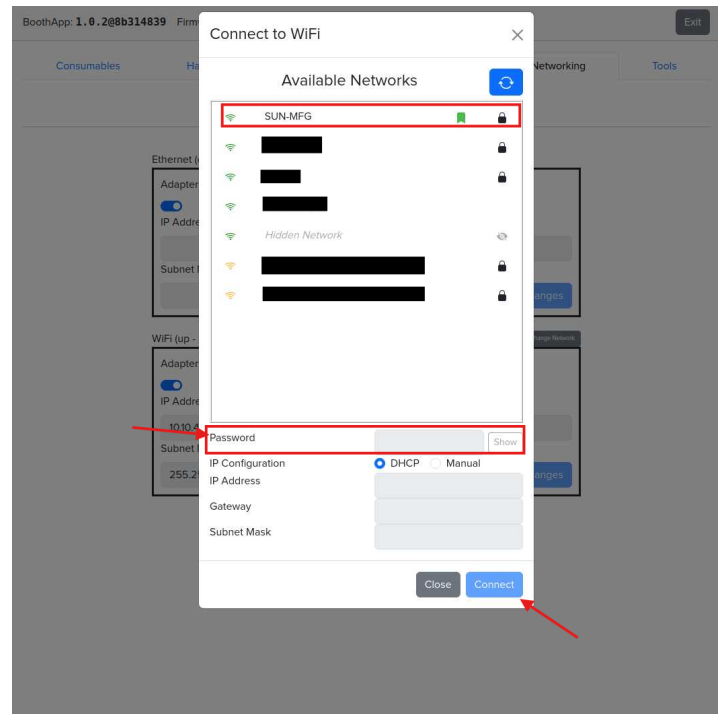

- In the Networking tab, we will find the Wi-Fi window and select the button "Change Network"

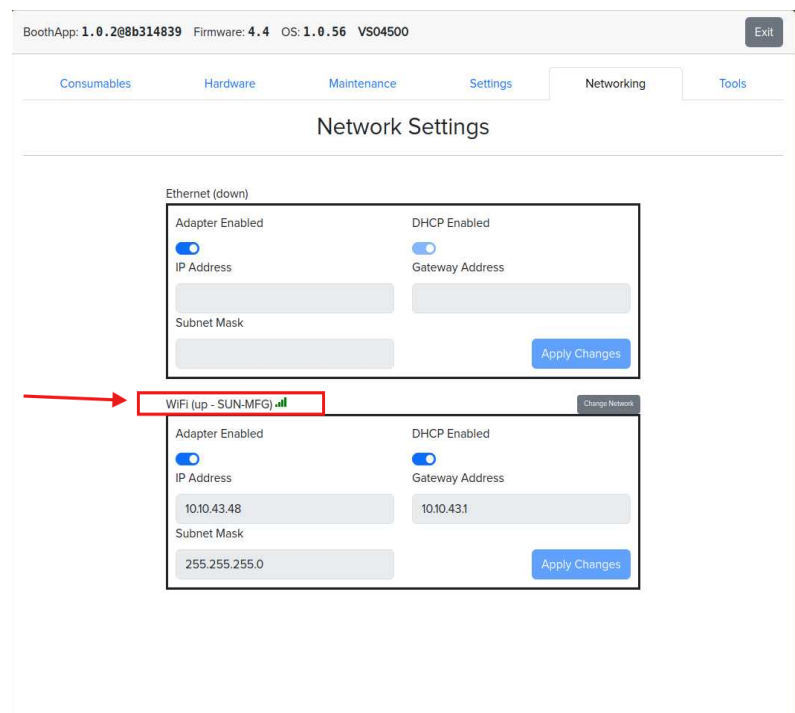

WHERE BEAUTY MEETS SCIENCE & TECHNOLOGY

- You can now select the Wi-Fi that you would like to connect to, enter your password, then select "Connect"

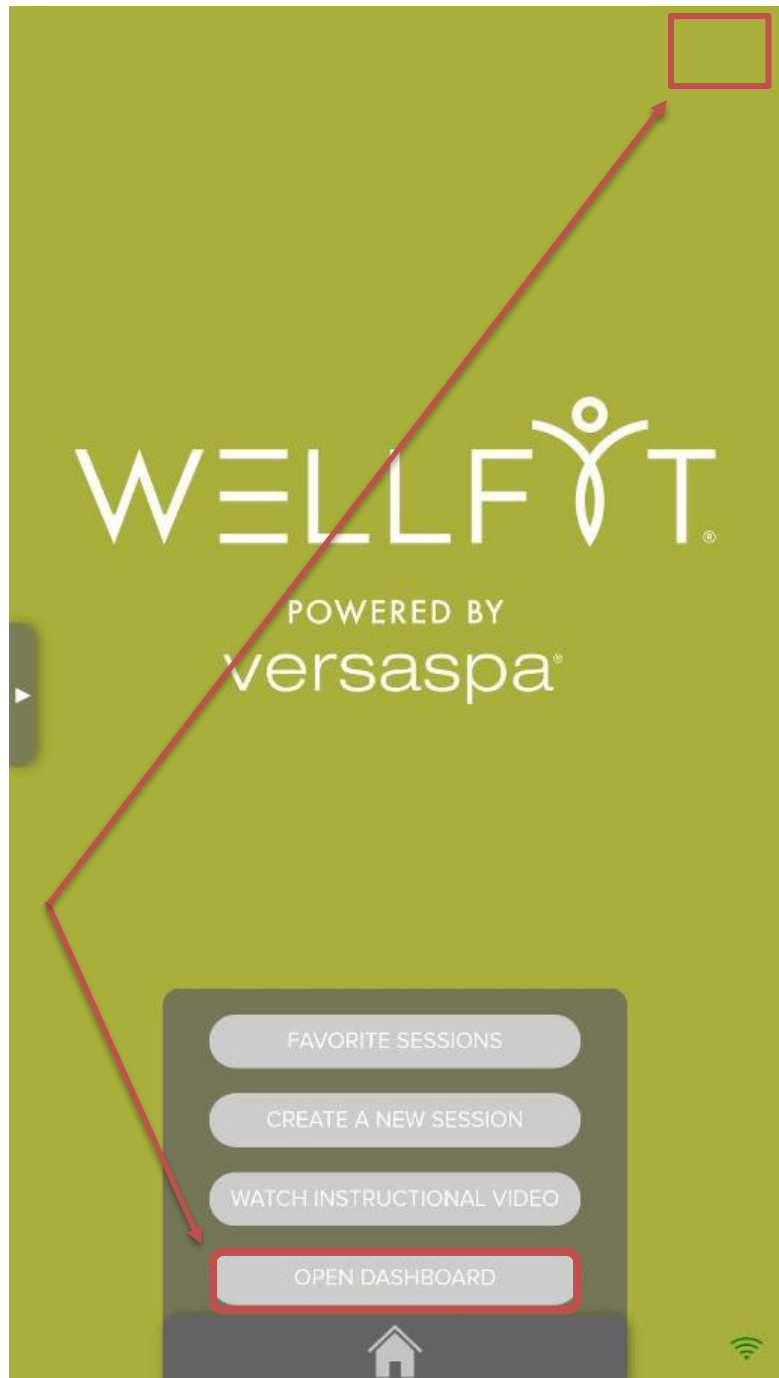

- After selecting "Connect, you should see the Wi-Fi name and signal strength indicator above the Wi-Fi bubble
